

Integrated Booklet Maker

Professionally finished work documents

Dog-eared documents, pulled out, last minute, from your briefcase or a pile on your desk, can demolish your professional credibility. Imagine, instead, documents, centre-folded and neatly stapled, easy to open and to stack into tidy piles. Such documents are a green button click away with the VarioPrint 2090 integrated booklet maker.

Boost your reputation in seconds

The integrated booklet maker for the Océ VarioPrint 2090 can help you improve your documents' appearance—and by extension your reputation—in seconds. The system makes professional-looking booklets of up to 20 sheets in simplex or duplex and with landscape or portrait orientation. The finished documents carry that extra quality edge that enhances any presentation, proposal or report. The booklet maker also produces 'standard' booklets, such as information manuals, club magazines, etc.

Produce documents easily and ergonomically

Producing high quality finished documents is only a button push away. A user simply selects 'booklet making' at the Océ VarioPrint 2090's intuitive interface or from the desktop driver. The Océ VarioPrint 2090 completes the other required settings: correct imposition, rotation and zoom. And always adjusts to accommodate simplex, duplex, landscape or portrait settings. Users also collect the output at an ergonomically sensible height. So document production is safe and comfortable, as well as easy.

Océ VarioPrint 2090 system preview

Fully integrate finishing on the Océ VarioPrint 2090

The booklet maker is an integrated part of the Océ VarioPrint 2090. This sophisticated system optimises every pixel printed—automatically and efficiently—so photographs, drawings and text print beautifully on any stock. And ensures productivity via simple operation and outstanding reliability. Combined with Océ Doc Works workflowmanagement software, the Océ VarioPrint 2090 is perfect for print rooms and digital print providers. And, with the booklet maker, provides a valuable end-to-end solution.

Protect your investment with convenient growth path

The Océ integrated booklet maker is a prime example of the Océ growth path philosophy of system design. It allows you to add real value to your Océ VarioPrint 2090, without having to buy a whole new system. So it protects your investment. Another example of this concept on the Océ VarioPrint 2090 is Océ Doc Works software.
